

Velnix Privacy Policy

Effective Date: August 3, 2026

1. Introduction

Welcome to Velnix.

Your privacy is important to us. Velnix is designed with a **Privacy by Default** philosophy. We believe that a media player should respect its users by minimizing data collection, operating transparently, and giving users full control over their information.

This Privacy Policy explains how Velnix handles information when you use the application and related services.

2. Our Privacy Principles

Velnix is built around the following commitments:

- Privacy by Design
- Minimal Data Collection
- Transparency
- User Control
- Secure Processing
- Local-First Operation

Whenever possible, your media files and settings remain on your own device.

3. Information We Collect

By Default

Velnix does **not** collect:

- Personal information
- Names
- Email addresses
- Passwords
- Payment information
- Government-issued identification
- Contacts

- Browsing history
- Advertising identifiers
- Media library contents

Your videos remain your own.

4. Local Data

Velnix may store the following information **only on your device**:

- Application settings
- Theme preferences
- Playback history
- Resume positions
- Playlists
- Favorite items
- Keyboard shortcuts
- User preferences
- Cache files

This information is not transmitted to Velnix unless you explicitly enable a future online feature that requires synchronization.

5. Network Features

Certain optional features may require an internet connection, such as:

- Checking for software updates
- Downloading subtitles
- Retrieving media metadata
- Accessing optional online services

These features are optional whenever reasonably possible.

6. Telemetry

Velnix does **not** include hidden telemetry.

If anonymous usage statistics are introduced in the future:

- They will be **disabled by default** unless otherwise required by law.
- Users will be clearly informed.

- Users can enable or disable them at any time.
-

7. Crash Reports

Crash reporting, if offered, is optional.

Users will be informed before any diagnostic information is sent.

Crash reports should never intentionally include:

- Video content
 - Personal documents
 - Passwords
 - Authentication tokens
 - Encryption keys
-

8. Third-Party Services

Velnix may interact with third-party services only for features the user chooses to use, such as subtitle providers or metadata services.

Velnix does not control the privacy practices of those third-party services. Users should review their respective privacy policies before using them.

9. Security

Velnix follows secure software development practices, including:

- Secure by Design principles
 - Input validation
 - Secure network communication
 - Dependency review
 - Regular security improvements
 - Protection against common software vulnerabilities
-

10. User Control

Users remain in control of their information.

Users may:

- Clear playback history
 - Delete cached data
 - Reset application settings
 - Disable optional online features
 - Remove downloaded metadata
 - Delete downloaded subtitles
-

11. Children's Privacy

Velnix is not specifically directed toward children and does not knowingly collect personal information from children through the application.

12. Open Source Components

Velnix uses selected open-source software components in accordance with their respective licenses.

Appropriate acknowledgements and license information will be provided with the application.

13. Future Cloud Features

If Velnix introduces optional cloud services in the future:

- Participation will be optional.
 - Users will be clearly informed about what information is synchronized.
 - Appropriate security measures will be implemented.
 - This Privacy Policy will be updated before those features are released.
-

14. Policy Updates

This Privacy Policy may be updated as Velnix evolves.

When significant changes are made, users will be informed through the application, website, or release notes where appropriate.

The latest version of this policy will always supersede previous versions.

15. Contact

Questions, suggestions, or privacy concerns regarding Velnix may be submitted through the official Velnix project website or official project repository once available.

Privacy Commitment

Privacy is a feature—not an afterthought.

Velnix is committed to providing a media player that respects its users by collecting as little information as possible, operating transparently, and giving users meaningful control over their data.

Our goal is simple:

Your media belongs to you. Your data belongs to you. Your privacy belongs to you.
